PROJECTS

Br Graphics — ReactJS, NextJS, TypeScript, PostgreSQL, Prisma ORM

A portfolio site for my Graphic Designer client built with Nextjs with a behance embed feature.

StorefyV2 — ReactJS, NextJS, TypeScript, Zustand, PostgreSQL, Prisma ORM

A simple e-commerce web app built with NextJS and TypeScript with CRUD functionality to create, update, and delete products. Integrated with Stripe for testing/practice purposes, allowing you to simulate payments like real-world applications.

Streamifyxyz — ReactJS, NextJS, Zustand, TailwindCSS

A streaming web app made with NextJS, taking advantage of server-side rendering and server data fetching, where you can watch your favorite movie, anime, or tv shows/series, you can also read manga, manhwa, and light novels. With real time updates powered by REST API.

EXPERIENCE

Virtual Assistant

GRZY and Gina Ecommerce LLC., Florida, US —

September 2022 - Present

A personal ecommerce dropshipping business. My responsibilities included researching products that met the required criteria and listing them on eBay, Amazon, Facebook Marketplace, and Shopify. I also focused on driving sales and ensuring the profitability of the listed products.

Remotask & Appen — Data Annotator

February 2021 – May 2021

Annotating Data in images by labeling and tagging to train AI Models.

KC Wonderland, Pasig, PH — Machine Technician

July 2019 - January 2020

KC Wonderland is an arcade and amusement company. My responsibilities included maintaining arcade machines, troubleshooting, and repairing electronic components.
